# JOHANNESBURG SPEECH PATHOLOGY & AUDIOLOGY

## ABOUT YOUR PUPILS:

**EAR:** Do your pupils complain that their ears are troubling them? Do they suffer from painful, and/or discharging ears? Do they struggle to hear what you or other kids are saying in class?

## COMMUNICATION, LEARNING AND SWAL-

**LOWING:** does your pupil have difficulties with speech and/or language production? Do they experience difficulties learning, attend-

ing and concentrating in class? Do they suffer from feeding and/or swallowing difficulties? Evidence-based treatment options and practical advice is available for them.

## ABOUT US

We have a **specialized hearing clinic** where decreased hearing is tested and **hearing aids fitted** in close collaboration with an ENT Surgeon.

We offer treatment for all **communication related disorders** stemming from ear diseases and/or hearing disorders, mouth and throat related disorders, and difficulties related to disorders in the structures of the head and neck.

We treat communications problems such as delayed speech and language development, impaired speech and language following strokes and head injury; impact of these on learning, attention deficit, auditory processing difficulties, etc.

We treat **feeding, swallowing and voice problems** in children and adults.

We do all the above for **medico-legal** purposes where we conduct assessments based on referrals by the legal fraternity for medico-legal purposes
